

PKD Patient Registration

The following registration steps outline the mandatory information required to complete the registration of an **Existing** patient.

Main Menu: Patients > Demographics General 1 tab

To update an existing patient:

1. Go to the Patients menu, choose **Demographics**.
2. Look up the patient by clicking the arrow next to **Name**.

3. Go to the **Programs** tab to add the Program Diagnosis.
 - a) Click on the **Program: current open renal program** will autopopulate.
 - b) Select the Primary Diagnosis **Type: Primary**
 - c) Type in **Code: 41** and click the tab key to populate the description.
 - d) Click the **Save** button.
